Dancing Like a Star

Pas De Deux Academy Takes Dance to a HIGHER Level

Las Vegas, Nevada January 25, 2011 - Dancers now have the opportunity to learn the awe inspiring lifts and partnering techniques used by the stars of dance. The world's most comprehensive video guide to learning Pas De Deux (partnering) was released today by the Pas De Deux Academy (www.PasDeDeuxAcademy.org) to fill the void that currently exists at dance studios around the world.

Currently, only a select few dance studios are able to offer classes on Pas De Deux as a result of the extremely small number of remaining qualified instructors. The 5 disk set of DVD's being released today provides detailed instruction by one of the only remaining Pas De Deux Masters, Sean Cronin. With these DVD's, it is expected that, any studio will now have the opportunity to offer Pas De Deux classes or dedicated dancers will now have the opportunity to learn on their own.

The Academy's website details the contents of the 5 DVD's, maintains a registry of all Academy graduates and is building what it hopes will be the most comprehensive online directory of all things related to dance.

With the increasing popularity of dance shows on television and on the big screen demand has grown to an all time high for instruction in the best and most impressive partnering techniques and lifts. The DVD series provides the needed instruction from the very basic beginning partnering techniques to the most advanced professional lifts in over 6 ½ hours of instruction covering over 150 skills and techniques.

Mr. Cronin has over 25 years of experience performing and teaching Pas De Deux in some of the most famous shows in Las Vegas and Paris. Mr. Cronin says that the release of this DVD series is the realization of his dream to be able to capture his lifes' work on video and to make the information available to those aspiring dancers who would not otherwise have access to it.

About the Pas De Deux Academy:

Founded in 2010 while distributing the world's most comprehensive video guide to learning Pas De Deux, the Pas De Deux Academy strives to become the most comprehensive resource for all things related to Pas De Deux. The Academy invites all dance studios, dance companies, academic dance programs and companies that supply anything dance related, to submit their details to be added to its online database. Over time the Academy hopes that its database will become the world's most complete of its kind and will become an invaluable resource to the dance world as a whole.
